CABLE

## LTC WALL STRAPS

### TAKE CONTROL

The self-adhesive cable holders are inconspicuous and flat. That way, the cables don't stand out when attached to walls or behind furniture.

#### SELF-ADHESIVE

Thanks to their integrated adhesive surface, LTC WALL STRAPS are fastened in no time on walls, furniture and baseboards.

#### EXTRA-STRONG

No matter where you take out or lay a cable, their powerful adhesion guarantees optimal hold for up to four cables.

#### EXTRA FLAT

Unlike other cable guides, LTC WALL STRAPS are extra flat. This makes them ideal for cables running along or behind furniture.

• *Other benefits* •

## heat & cold resistant

LTC WALL STRAPS are extremely durable and can also be used for outdoor purposes in summer and winter. When applying outside, the surface should not be too cold, so that the adhesive properties can achieve their full effect.

## versatile

The self-adhesive nylon fastening holders are not only suitable for cable routing and can be used to fixate other items.

## residue-free

The LTC WALL STRAPS are easy to remove and leave no unsightly marks. Note that due to their strong adhesiveness of the cable holders, wallpaper or walls with multiple coats of paint can be affected.

• *Application tips* •

### OPTIMAL SURFACES

For best results, the cable holders are ideally attached to clean, smooth surfaces. Avoid tugging on them too strongly.

### FIXING CABLES

LTC WALL STRAPS not only help route cables but also offer secure hold to where you want cables, like on desks for instance.

### THEY'RE ALSO GREAT FOR CRAFTS

There's no end to their creative uses, like making quick and easy Halloween decorations.

FOR ALL THOSE WHO CAN'T GET ENOUGH, LTC WALL STRAPS are also available in large packages containing 50 pieces.
